Subject: KB - Update for you from June Coleman - Tom Vanderhorst

Hi you'll! Hope this finds all well and enjoying their grandchildren ,as they grow up so fast. Our oldest, Lauren, is now 21 and our youngest is 14. We don't have any more babies, and how I miss them.

Tex is not doing so great. He fell in Mar. and fractured a vertebra, they fixed it by shooting substance ,we call cement, Into the vertebra to pump it back up and that did wonders for him. His breathing is much worse, so he is on oxygen at home now and uses a walker, He is so unsteady on his feet. They suspect he may have Parkinson's Disease, so he has an appointment July 11 with a neurologist. As for me I am still going strong but do feel my age at times. I have some great friends that I go and do things with, not as great as you guys though. So goes the days in the lives of June and Tex Coleman.

This is really just to let you know that as of June our e-mail address will be jocxtwo@aol.com .

Love to all, June
